

# Galvanized sheet mainly application

--by wanzhi steel research institute

## (1) Galvanized sheet mainly application

a large number of galvanized sheet plate used in automobile manufacturing, cooler, construction, ventilation and heating facilities and furniture manufacturing and other fields. Galvanized become important steel anticorrosion method, not only because the zinc can be formed in the steel surface protective layer of dense, but also because of the zinc has the effect of cathodic protection, when the galvanized layer damaged, it can still through the cathodic corrosion protection to prevent the iron base

### 1. Construction industry

roof, roof components, panels, balcony window, newsstands, warehouse, rolling door, heaters, drainage, etc

### 2. Household appliances

refrigerators, washing machines, switch cabinet, air conditioning, microwave oven, bread machine, copier, vending machines, electric fans, vacuum cleaners, etc

### 3. Furniture industry

lampshade, wardrobe, desk, bookcase, counter, signs, medical equipment, etc

### 4. ransportation industry

cars, car shell, carriage board ceiling, tractor, trams, container, highway fence, ships bulkhead, etc

### 5. ther instrument shell

dustbin, billboards, clocks, photographic equipment, meter and other hot galvanized steel sheet, color coating steel plate is hot aluminium zinc plate, electric galvanized sheet as the substrate, such as the surface pretreatment

## (2) Galvanized sheet type

hot galvanized steel sheet, electric galvanized sheet, including electrolytic tinplate, galvanized sheet pressing and forming, with a connection, do not need any accessories can firmly connect the mesh and the pillar is firm Galvanized sheet according to its use can be divided into: activated alumina galvanized sheet, desiccant galvanized sheet and catalyst galvanized sheet. The chamber is made of high quality galvanized sheet or stainless steel plate in the working chamber clean the rust

### **(3) Conclusion**

Different types of galvanized sheet price is also different, different industries, of course, use galvanized sheet price and material is different, so you in choosing a galvanized sheet, you must provide a sale purpose, so that they will come through your purpose for you to choose more suitable your product

### **(4) Customs information**

HS Code: 72104900

Other galvanized iron or non-alloy steel wide plates (except for electro-galvanized, width  $\geq$  600mm)
